LANDING COMMISSION/BOARD OF SELECTMEN

ARTICLE 15
To see if the Town will vote to petition the General Court for a special act authorizing recall of elected officials in the Town of Westport, in the form set forth below; provided, however, that the General Court may make clerical and editorial changes of form only to the bill unless the Board of Selectmen approves amendments to the bill prior to enactment by the General Court, and to authorize the Board of Selectmen to approve such amendments which shall be within the scope of the general public objectives of the petition, and/or take any other action relative thereto.

AN ACT PROVIDING FOR RECALL ELECTIONS IN THE TOWN OF WESTPORT

Be it enacted, etc., as follows:

SECTION 1. Notwithstanding any general or special law to the contrary, any holder of an elected office in the Town of Westport may be recalled by the registered voters of the town as provided in this act.

SECTION 2. An initial recall affidavit may be filed with the town clerk signed under the penalty of perjury by at least two hundred registered voters of the town with their names and addresses, one of who shall be designated as the so-called lead petitioner for purposes of this act. The initial recall affidavit shall contain the name of the officer sought to be recalled, appearing as registered on the current voting list prepared under G.L. c.51, §§37 and 37A, the office from which removal is sought, and a statement of the grounds for recall. Within 24 hours of receipt, the town clerk shall submit the affidavit to the board of registrars of voters, which shall, within seven business days, certify thereon the number of signatures, which are names of registered voters of the town.

SECTION 3. The town clerk shall, within 7 business days following said certification, make available to the lead petitioner at the office of the town clerk petition blanks containing lines for the number of signatures required below, multiplied by 5, demanding such recall. Such blanks shall be issued by the town clerk with a facsimile of the signature of the town clerk and official seal of the town attached thereto. The blanks shall be dated, be addressed to the board of selectmen, contain the names of the 10 voters first named on the affidavit, the number of blanks so issued, the name of the person whose recall is sought appearing as registered on the current voter list, the office from which removal is sought, the grounds of recall as stated in the affidavit, and demand the election of a successor to the office. Said recall petition shall be returned and filed with the town clerk within 30 days from the date the recall petition sheets are made available in accordance with this section, and shall have been signed by at least 10 per cent of the registered voters of the town as of the date of the most recent annual town election, who shall add to their signatures their place of residence, including their street and number, if any.

The town clerk shall within 1 business day of receipt submit the petition to the board of registrars of voters, and the board of registrars shall within 7 business days certify thereon the number of signatures which are names of registered voters of the town.

SECTION 4. If the total recall petition sheets shall be found and certified by the board of registrars of voters to be sufficient, the certified petition shall be forthwith submitted with the certificate of the town clerk to the board of selectmen. The board of selectmen shall within 5 business days give written notice to the officer sought to be recalled of receipt of the certified
petition and shall, if the officer does not resign within 5 business days thereafter, forthwith order an election to be held on a date fixed by them not less than 64 nor more than 90 days from the date the board of selectmen call for said election; provided, however, that if any other town election is to occur within one 120 days of the date the board calls for the election, the board of selectmen shall postpone the holding of the recall election to the date of such other election, and the question of recall shall appear on the ballot at said election. If a vacancy occurs in the office after a recall election has been ordered, the election shall nevertheless proceed as provided in this act.

SECTION 5. An officer sought to be recalled may be a candidate in an election to be held to fill the vacancy and unless the officer requests otherwise in writing, the town clerk shall place the officer’s name on the ballot without nomination. The nomination of other candidates, the publication of the warrant for the recall election and the conduct of the nomination and publication, shall all be in accordance with the law relating to elections, unless otherwise provided in this act.

SECTION 6. The incumbent shall continue to perform the duties of the office until the recall election. If the incumbent is not recalled, the incumbent shall continue in office for the remainder of the unexpired term, subject to recall as before, except as provided in this act. If not re-elected in the recall election, the incumbent shall be considered removed from office immediately and the office vacant.

SECTION 7. Ballots used in a recall election shall contain the following propositions:

FOR THE RECALL OF (NAME), (OFFICE)
AGAINST THE RECALL OF (NAME), (OFFICE)

Adjacent to each proposition, there shall be a place to mark a vote. Following the propositions shall appear the word “candidates” with directions to voters as required G.L. c.54, §42. Beneath the word “candidates” shall appear the name of candidates nominated as provided in this act.

If a majority of the votes cast upon the question of recall is in favor of recall, the officer shall be recalled and the votes for the candidates shall be counted. In that instance, the candidate receiving the highest number of votes shall be declared elected for the open office. If less than a majority of the votes cast are in favor of recall, the votes for candidates shall not be counted.

SECTION 8. An initial recall affidavit shall not be filed against an officer within 3 months after the officer takes office or within the last 3 months of the term. In the case of an officer subjected to a recall election and not recalled, a new recall affidavit shall not be filed against that officer until at least 6 months have elapsed after the election at which the previous recall was submitted to the voters of the town.

SECTION 9. No person who has been recalled from an office or who has resigned from office after the filing of a recall petition under this act shall be appointed to any town office within two years after such recall or such resignation.

SECTION 10. This act shall take effect upon its passage; and/or take any other action relative thereto.

**ARTICLE 27**

**27.1 PURPOSE**

The purpose and intent of this Article is to regulate the siting and operation cultivation, processing and manufacturing of marijuana and marijuana products by Craft Marijuana Cooperatives in accordance with the relevant regulations issued by the Cannabis Control Commission including but not limited to 935 CMR 500, in suitable locations and in a manner to minimize adverse impacts on abutting properties; provide appropriate separation from schools, parks, and other areas where children congregate; provide for site security to deter crime and uphold the safety of surrounding neighborhoods, and other land uses potentially incompatible with the Cooperatives.

**27.2 DEFINITIONS**
Any term not specifically defined herein shall have the meaning as defined in M.G.L. 94G, §1 and 935 CMR 500.000 as the statute and regulations may from time to time be amended.

**Canopy** - means an area to be calculated in square feet and measured using clearly identifiable boundaries of all areas(s) that will contain mature plants at any point in time, including all of the space(s) within the boundaries, canopy may be non contiguous, but each unique area included in the total canopy calculations shall be separated by an identifiable boundary which include, but are not limited to: interior walls, shelves, greenhouse walls, hoop house walls, garden benches, hedge rows, fencing, garden beds, or garden plots. If mature plants are being cultivated using a shelving system, the surface area of each level shall be included in the total canopy calculation.

**Commission or CCC** - means the Massachusetts Cannabis Control Commission established by M.G.L. c. 10, § 76, or its designee.

**Craft Marijuana Cooperative or CMC** - means a Marijuana Cultivator comprised of residents of the Commonwealth and organized as a limited liability company, limited liability partnership, or cooperative corporation under the laws of the Commonwealth. A cooperative is licensed by the Cannabis Control Commission to cultivate, obtain, manufacture, process, package and brand cannabis or marijuana products to transport marijuana to Marijuana Establishments, but not to consumers.

**Limited Access Area** - means an indoor or outdoor area on the registered premises of a Marijuana Establishment where cannabis or marijuana products, or their byproducts are cultivated, manufactured, stored, weighed, packaged, processed, or disposed, under the control of a Marijuana Establishment, with access limited to only those marijuana establishment agents designated by the establishment.

**Manufacture** - means to compound, blend, extract, infuse or otherwise make or prepare a Cannabis or marijuana product.

**Manufacturing Site** - means the locations within the property boundaries of a lot at which any activities associated with manufacturing conducted by a Craft Marijuana Cooperative takes place.

**Marijuana Cultivation** - means the growing of marijuana and its associated processing.
**Marijuana Cultivator or Cultivator** - means an entity licensed to cultivate, process and package marijuana, and to transfer marijuana to other Marijuana Establishments, but not to consumers. A Craft Marijuana Cooperative is a type of Marijuana Cultivator.

**Marijuana Cultivation Site or Cultivation Sites** - means the locations within property boundaries of a lot at which any activities associated with the cultivation, processing, packaging and transfer of marijuana takes place.

**Marijuana Products** – means products that have been manufactured and contain marijuana or an extract of marijuana, including concentrated forms of marijuana and products composed of marijuana and other ingredients that are intended for use or consumption, including edible products, beverages, topical products, ointments, oils, and tinctures.

**Marijuana Product Manufacturer** – means an entity licensed to obtain, manufacture, process, and package marijuana and marijuana products, to deliver marijuana and marijuana products to marijuana establishments, and to transfer marijuana and marijuana products to other marijuana establishments, but not consumers.

**Process or Processing** - means to harvest, dry, cure, trim and separate parts of the cannabis or marijuana plant by manual or mechanical means, except it shall not include manufacture as defined in 935 CMR 500.002.

27.3 **AUTHORITY**

Craft Marijuana Cooperatives (CMC) may be allowed only by a Special Permit and Site Plan Approval for each cultivation and manufacturing site issued from the Westport Planning Board provided the Planning Board finds that:

1. The Sites and Facilities thereon are designed to minimize any adverse visual or economic impacts on abutters and other parties in interest, as defined in M.G.L. Chapter 40A, Section 11.

2. The Facility is designed to maximize security measures including but not limited to lighting, fencing, visibility and gates.

3. The CMC and the Town have executed a Host Community Agreement.

4. The applicant has satisfied all of the conditions and requirements of this Section.
5. The Facility demonstrates that it will meet all the licensing and permitting requirements of all applicable agencies within the Commonwealth of Massachusetts and Town of Westport and will be in compliance with all applicable state and Town of Westport laws and regulations.

6. A CMC, including the cultivation of marijuana and the manufacturing of marijuana products, is not a Farm Enterprise for the purpose of the Town of Westport Zoning By-Laws as it is a farming operation that is not entitled to protection under M.G.L. Chapter 40A, Section 3.

27.4 LIMITATIONS

1. Craft Marijuana Cooperative cultivation sites shall only be permitted in the:
   a. Residential/Agricultural District
   b. Business District - with the exception of that portion of the Business District bounded to the south following an east-west line 50’ parallel to and south of Kaila’s Way; to the east by Route 88; to the north by the northern boundary of the Business District; and to the west by a line 1,000’ from the westerly line of Main Road, currently the boundary of the Central Business District.
   c. Science and Technology Overlay District

2. Craft Marijuana Cooperative manufacturing sites shall only be permitted in the:
   a. Business District with the exception of that portion of the Business District bounded to the south following an east-west line 50’ parallel to and south of Kaila’s Way; to the east by Route 88; to the north by the northern boundary of the Business District; and to the west by a line 1,000’ from the westerly line of Main Road, currently the boundary of the Central Business District.
   b. Science and Technology Overlay District

3. The total amount of canopy permitted in the Residential/Agricultural District shall not exceed a maximum of 100,000 sq. ft. The initial special permit and site plan approval issued to any CMC shall limit the total
amount of canopy to 20,000 sq. ft. or less, equivalent to a Tier 3 production level under 935 CMR 500.005. The CMC may apply to modify its Special Permit after one year from the issuance of its Special Permit and License issued by the CCC for an increase in the cultivation canopy, not to exceed the unpermitted maximum canopy in the District at the time the modification application is filed. The request for an increase is subject to Site Plan approval and compliance with the other provisions of this bylaw.

4. The minimum size of a lot on which a cultivation site in the Residential/Agricultural District may be located is 5 acres.

5. Cultivation and manufacturing sites shall meet the dimensional requirements and any additional requirements listed in the district in which they are located.

6. The maximum dimensions of the footprint of a building used for indoor cultivation in the Residential/Agricultural, Business or STOD Districts shall not exceed 10,000 square feet.

7. The total amount of canopy permitted in the combined areas of the Business and Science Technology Overlay District shall not exceed a maximum of 100,000 sq. ft.

8. All manufacturing and cultivating facilities shall be located within the limited access area. Any other lawful use may occur outside of the limited area on the property.

9. The sale or distribution of marijuana or marijuana products to other than a CCC licensed Marijuana Establishment is strictly prohibited.

27.5 TERM LIMIT

A special permit and site plan approval granted under this section shall be personal to the applicant and may not be transferred or assigned.

27.6 LAPSE

A special permit and site plan approval shall lapse if not exercised within two years of issuance.

27.7 NOTIFICATION
All special permit holders shall advise the Planning Board and the Zoning Enforcement Officer of any modification, amendments or changes to licensing rights, including changes in tier canopy classification, granted to the special permit holder by the Commission. In the event that such modifications, amendments or changes constitute a material change in the use authorized under the terms of the special permit and the approved site plan, further site plan review and modification of the special permit shall be required.

27.8 WAIVER OF COMPLIANCE

The Planning Board, acting as the Special Permit Granting Authority, under this Section may waive strict compliance with the set-back or other dimensional requirements for cultivation and manufacturing sites, provided the Board finds that the waivers are in the public interest and not inconsistent with the purpose and intent of this Section.

27.9 GENERAL REQUIREMENTS

1. Any marijuana cultivation site or manufacturing site shall not be closer than 1000 feet, at the time the special permit application is filed, to a preexisting public or private school providing education in kindergarten or any of grades one through 12, or a state-licensed child day care center. The distance shall be measured in a straight line from the nearest point of the property line of the pre-existing public or private school providing education in kindergarten or any of grades one through 12, or a state-licensed child day care center to the nearest point of boundary of the cultivation or manufacturing limited access area.

2. Any marijuana cultivation or manufacturing site shall not be closer than 500 feet, at the time the special permit application is filed, of a park, playground, or place where children commonly congregate in an organized, formal, and ongoing manner. The distance shall be measured in a straight line from the nearest point of the property line of the park, playground, or place where children commonly congregate to the nearest point of boundary of the cultivation or manufacturing limited access area.

3. Any marijuana cultivation site in the Residential/ Agricultural District shall not be closer than 300 feet, at the time the application is filed, of an existing residential dwelling, except a dwelling owned by the owner of the lot on which the cultivation site is located. The distance shall be measured...
in a straight line from the nearest point of the existing residential dwelling in question to the nearest point of boundary of the cultivation or manufacturing limited access area.

4. In areas where residential uses on property that abuts the property on which a cultivation site is located, the use of greenhouses, defined to have walls and roofs constructed predominantly of glass or other transparent or translucent material, are encouraged in lieu of other types of enclosed buildings for marijuana cultivation.

5. The special permit and site plan application shall include a security plan that shall meet all the applicable security requirement of 310 CMR 500.100, including, without limitation, perimeter fencing, alarms, video camera surveillance, and back-up electrical power systems. The security plan approved by the Commission will be submitted to the Police and Fire Departments for their review and approval prior to the issuance of the final site plan approval which shall incorporate the Departments’ recommendations. The security plan will be reviewed and updated annually and changes reported to the Police and Fire Departments.

6. No odor from marijuana cultivation, processing or manufacturing may be noxious or cause a nuisance or danger to public health, or impair public comfort and convenience. The Planning Board may require the submission of an odor control plan and impose conditions that require facilities incorporate odor control technology and safeguards to ensure compliance with this section.

7. Noise emission from any cultivation or manufacturing site shall not cause a condition which violates the Noise Policy of the Massachusetts Department of Environmental Protection Division of Air Quality Regulations or the Town of Westport By Law, Article XL.

8. All lighting of facilities shall be shielded so as not to shed light onto adjacent residential properties. The Planning Board may require any artificial lighting system to employ appropriate components, including but not limited to LED components, equipped with deflectors to mitigate potential light pollution.

9. All facilities shall install and operate air pollution control equipment as required by Massachusetts Department of Environmental Protection Air Quality Regulations, 310 CMR 7.
10. Applications shall include a resource use plan outlining the planned practices for the use of energy, water, waste water disposal, solid and hazardous waste disposal and other common resources and to ensure there will be no undue damage to natural resources. All compost or fertilizers used in the cultivation of marijuana and all waste products must be stored no less than 100’ feet from any potable well or surface water. Compost, fertilizers and waste products must be contained in manner that will prevent stormwater and floodwaters from discharging these materials into any surface water.

11. Manufacturing sites shall comply with the provisions of the CCC regulations regarding the requirements for sanitary conditions in the handling and processing of marijuana and edible marijuana products and the preparation, handling and storage of such products.

12. The hours of operation of cultivation or manufacturing facility may be set by the Planning Board as a condition of a special permit.

27.9 **SEVERABILITY**

Severability. If any provision herein is determined to be unlawful, it shall be severed from this section and all remaining provisions shall remain in force and effect.

and/or take any other action relative thereto.

CRAFT CANNABIS CO-OP COMMITTEE/BOARD OF SELECTMEN

BOARD OF SELECTMEN: Recommended.
FINANCE COMMITTEE:

**ARTICLE 24**

To see if the Town will vote to amend several sections of the **TOWN OF WESTPORT ZONING BY-LAWS “ARTICLE 24 SOLAR ENERGY SYSTEMS”** by deleting the strike through text and inserting the bold underlined text as follows:

**Item 1:**

**24.3.1 Purpose**

The purpose of this section is to facilitate regulate the creation or expansion of any Large-Scale Ground-Mounted Solar Photovoltaic Installations by providing standards for the siting, placement, design, construction, operation, monitoring, modification and removal of such installations that address public safety,
minimize impacts on environmental, scenic, natural and historic resources and to provide adequate financial assurance for the eventual decommissioning of such installations.

Item 2:

24.3.3 Special Permit

Large-scale ground-mounted solar photovoltaic installations are allowed by special permit granted by the Planning Board in the Residence-Agriculture District. The Planning Board’s authority to grant or deny a special permit is discretionary and prior to the approval of any Large Scale Ground Mounted Solar Photovoltaic Special Permit, the Planning Board shall consider whether the proposal will achieve the objectives listed below and may require conditions and safeguards deemed necessary to realize, within reason, these performance standards:

1. Protects adjoining premises by providing adequate screening and buffers between the property lines and the solar arrays.

2. Provides screening and buffers to protect scenic vistas and viewsheds from residential uses, public streets and waterways (as described in 24.3.11.d).

Item 3:

24.3.5 Required Review and Permitting

All large-scale ground-mounted solar photovoltaic installations in the Business and Unrestricted Zoning Districts shall require Site Plan Approval under Article 15 and a building permit issued by the Building Inspector. Low Impact Development Site Plan Approval, under Zoning By-Law Article 20 by the Planning Board shall also apply.

All large-scale ground-mounted solar photovoltaic installations in the Residential/Agricultural zoning district shall require a special permit under this Zoning By-Law and a building permit. Low Impact Development Site Plan Approval, under Zoning By-Law Article 20 by the Planning Board shall also apply, including to those installations requiring an Order of Conditions or Request for Determinations of Applicability issued by the Town of Westport Conservation Commission.

The applicant is encouraged to request a pre-application review at a regular meeting of the Board. At the pre-application review, the applicant may outline the proposed solar photovoltaic installation and seek preliminary, but not binding, feedback from the Board and other Town bodies and staff.

Item 4:
24.3.8 Dimensional, Use and Access requirements for Large Scale Systems (Lot Size, Frontage, Setbacks and Height)

1. Setbacks may be reduced if, in the opinion of the Planning Board based on evidence submitted by applicant, existing and/or proposed screening will be adequate to minimize visual impact (as described in 24.3.11.d). Under no circumstances will setbacks be reduced to less than the dimensional requirements for the zoning district. Setbacks may be increased by up to 50% if, in the opinion of the Planning Board based on evidence submitted by the Board or abutters, existing and/or proposed screening will not be adequate to minimize visual impact (as described in 24.3.11.d).

   Fencing and structures, including solar panels, shall meet the minimum setback requirements, and clearing or trimming of natural vegetation within the required setbacks shall be prohibited unless the Board finds that the trimming or clearing would not have a detrimental impact on abutting properties. Drainage facilities shall meet the minimum setback requirements unless the Board finds that adequate screening can be provided and in the opinion of the Board, a reasonable alternative design is not feasible.

2. Height of Structures – No component of a Large-Scale Ground-Mounted Solar Photovoltaic Installation shall exceed 15 feet above existing grade (except for connection to the grid).

3. Protected Open Space – Shall include only areas left in their natural state.

4. Clearing Area – shall include all areas of the parcel being disturbed, the access drive shall also be included in this area. Clearing areas may
be increased by up to 50% provided the Board finds that the visual impact (as described in 24.2.11.d) is not detrimental to the abutters or neighborhood.

5. Access Drive - Access to the facility shall be through actual minimum lot frontage of 50 feet on a street or through a 50 foot wide easement connecting the development lot to a public way. The physical traveled way for the construction and maintenance of the proposed solar facility shall be a minimum of 12’ wide or such greater width as required by the Planning Board or Fire Department and shall have the lines, grades, surface conditions and drainage facilities, as the Planning Board deems necessary for the actual site conditions.

Item 5:

24.3.11 c. Land Clearing, Landscaping, Vegetation Maintenance

Clearing of natural vegetation shall be limited to what is necessary for construction, operation and maintenance of the installation. Article 20, Low Impact Development Site Plan Approval shall apply, including to those installations requiring an Order of Conditions or Request for Determinations of Applicability issued by the Town of Westport Conservation Commission.

Herbicides shall not be used on site. Mowing or grazing farm animals shall be used to control vegetation under the solar array panels. Geotextiles may be used to control erosion.

The design and construction shall include suitable organic material for all disturbed areas to prevent erosion and support pollinator-friendly habitat vegetation. In the case where topsoil is removed, a minimum of four inches of native topsoil, or compostable mulch mix, is replaced to facilitate plant growth and adequate coverage to control stormwater runoff.

Item 6:

24.3.11 d. Visual Impact

Siting of Large Scale Solar Energy Systems within the Residence-Agricultural District applicants shall consider the residential and farming character of the District, the larger general purpose of the Westport Zoning By-law to promote land uses compatible with that existing character and the avoidance of visual impacts that large scale solar energy systems, by their commercial or industrial nature, would have on District vistas.
Existing topography, plantings and natural landscaped buffers shall be used to minimize the visual impacts of large scale solar energy systems from residential uses, public streets or waterways. Large scale solar energy system designs shall not be approved unless the system design provides screening and buffers to protect scenic vistas and viewsheds from residential uses, public streets and waterways.

Structures shall be reasonably shielded from view by vegetation and/or joined and clustered to minimize adverse visual impacts. Landscaping, natural features, opaque fencing and other suitable methods shall be utilized. A screening plan shall be submitted ensuring that the solar arrays and any appurtenant structures are screened from roads and from adjacent lots by a minimum twenty-five (25) foot wide and five (5) foot tall staggered and grouped planting of shrubs and small trees within the setbacks. The Planning Board may alter or waive this requirement if such screening would have a detrimental impact on the operation and performance of the array, or would prove to be ineffective for the site. Fences may be required for safety and/or visual screening purposes with appropriate safety signage (see 24.3.11.b).

When possible, a diversity of plant species shall be used, with a preference for species native to New England. Use of exotic plants, as identified by the most recent copy of the “Massachusetts Prohibited Plant List” maintained by the Massachusetts Department of Agricultural Resources, is prohibited.

Such plantings shall use native plants and a mix of deciduous and evergreen species and may be located within the setback area. Said vegetative screening shall reach a mature form to effectively screen the installation within five years of installation. Planting of the vegetative screen shall be completed prior to final inspection and approval of the solar energy installation. A landscape maintenance bond may be required for two (2) growing seasons.

Pre-application clearing may negate the application for Large Scale Systems at the Planning Board’s discretion.
